Energy Efficiency Loan Program

The Office of Energy Efficiency was established in early 2008 to assist Islanders in reducing their energy consumption and minimize the environmental footprint of our daily activities.

The mandate of the Office of Energy Efficiency is to provide Islanders with advice and programs that will promote sustainable energy use and reinforce the importance of sound energy management for the economic, social and environmental well-being of Island residents and businesses.

The Office of Energy Efficiency is also a one-stop centre for provincial and federal energy efficiency programs and services.

The PEI Energy Efficiency Loan Program

- Provides financing for the implementation of the recommended upgrades – excluding doors and windows – identified in the ecoENERGY Energy Efficiency Evaluation Report.
- Only measures recommended in the evaluation report are eligible for this program.
- Clients are eligible for financing to a maximum of \$10,000. The annual rate of interest for this loan is six per cent.
- Depending on the amount borrowed, applicants will pay between \$90 and \$150 per month until the loan principal and interest are paid off.

Clients who qualify for the PEI ecoENERGY Audit Assistance Program for Low-Income Households are eligible for interest-free financing to a maximum of \$10,000.
